# Safety Data Sheet according to Regulation (EC) 'No. 2015/830

**illbruck** Flowcrete, **Nullifire TREMCO**. Vandex dryvit

# SECTION 1: Identification of the Substance/Mixture and the Company/Undertaking

| 1.1 | Product Identifier | FLOWCOAT ESD SF41 - PART A | Revision Date:   | 22/12/2021 |
|-----|--------------------|----------------------------|------------------|------------|
|     | Product Name:      | Flowcoat ESD SF41 Base A   | Supersedes Date: | 21/09/2018 |

UFI Code:

#### R9D0-A01S-R00E-EUJQ

1.2 Relevant identified uses of the substance or mixture and uses advised against
Component of multicomponent coatings - Professional use only. Coatings and paints, thinners, paint removers. Manual activities involving hand contact. Widespread use leading to inclusion into/onto article (indoor). Widespread use leading to inclusion into/onto article (outdoor). For use by appropriately trained applicators. Roller application or brushing. Advised against: Home DIY applications. Advised against: Spray application, because of the additional hazards.

# 1.3 Details of the supplier of the safety data sheet

# **SECTION 2: Hazard Identification**

2.1 Classification of the substance or mixture

Classification according to Classification, Labeling & Packaging Regulation (EC) 1272/2008

#### HAZARD STATEMENTS

| Other EU extensions                                       | EUH205 |
|---|--------|
| Skin Irritation, category 2                               | H315   |
| Skin Sensitizer, category 1                               | H317   |
| Eye Irritation, category 2                                | H319   |
| Hazardous to the aquatic environment, Chronic, category 2 | H411   |

# 2.2 Label elements

# Symbol(s) of Product

# Signal Word

Warning

# Named Chemicals on Label

Formaldehyde, oligomeric reaction product with 1-chloro-2,3-epoxypropane and phenol, 1,6-Hexanediol diglycidyl ether, Reaction product: bisphenol-A-(epichlorhydrin) epoxy resin (number average molecular weight  $\leq$  700)

# HAZARD STATEMENTS

| Other EU extensions  | EUH205       | Contains epoxy constituents. May produce an allergic reaction.  |
|--|--------------|---|
| Skin Irritation, category 2                                  | H315         | Causes skin irritation.   |
| Skin Sensitizer, category 1                                  | H317         | May cause an allergic skin reaction.  |
| Eye Irritation, category 2                                   | H319         | Causes serious eye irritation.  |
| Hazardous to the aquatic environment,<br>Chronic, category 2 | H411         | Toxic to aquatic life with long lasting effects.  |
| PRECAUTION PHRASES   |              |   |
|  | P261         | Avoid breathing dust/fume/gas/mist/vapours/spray.   |
|  | P273         | Avoid release to the environment.   |
|  | P280         | Wear protective gloves/protective clothing/eye protection/<br>face protection.  |
|  | P302+352     | IF ON SKIN: Wash with plenty of soap and water.   |
|  | P305+351+338 | IF IN EYES: Rinse cautiously with water for several minutes.<br>Remove contact lenses, if present and easy to do so.<br>Continue rinsing. |
|  | P333+313     | If skin irritation or rash occurs: Get medical advice/attention.  |
|  | P391         | Collect spillage.   |
| GHS ADDITIONAL INFORMATION                                   |              |   |
|  | ADD-05       | Content of {CAS-no 68609-97-2} Oxirane, mono[(C12-14-<br>alkyloxy)methyl]derivs.is variable for colours but in any case<br><2.5%.         |

# 2.3 Other hazards

Ingestion may cause irritation to mucous membranes.

#### Results of PBT and vPvB assessment:

The product does not meet the criteria for PBT/VPvB in accordance with Annex XIII.

| SECTION 3: Composition/Information On Ingredients |                       |         |          |                        |  |  |  |

Additional Information: The text for CLP Hazard Statements shown above (if any) is given in Section 16.

# **SECTION 4: First-aid Measures**

# 4.1 Description of First Aid Measures

**GENERAL NOTES:** When symptoms persist or in all cases of doubt seek medical advice. Show this safety data sheet to the doctor in attendance.

AFTER INHALATION: Remove person to fresh air. If signs/symptoms continue, get medical attention.

AFTER SKIN CONTACT: Use a mild soap if available. Do not use solvent or thinners to clean skin. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician. AFTER EYE CONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. If eye irritation persists, consult a specialist.

**AFTER INGESTION:** Consult a physician. Gently wipe or rinse the inside of the mouth with water. Give small amounts of water to drink. Never give anything by mouth to an unconscious person. If swallowed, DO NOT induce vomiting unless directed to do so by medical personnel.

#### Self protection of the first aider:

No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

May cause sensitization by skin contact. Irritating to eyes and skin.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically. No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

## **SECTION 5: Fire-fighting Measures**

## 5.1 Extinguishing Media:

#### Carbon Dioxide, Dry Chemical, Foam

FOR SAFETY REASONS NOT TO BE USED: Do not use a solid water stream as it may scatter and spread fire. Alcohol, Alcohol based solutions, any other media not listed above.

#### 5.2 Special hazards arising from the substance or mixture

In case of fire hazardous decomposition products may be produced such as: Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke).

#### 5.3 Advice for firefighters

Keep containers and surroundings cool with water spray. In the event of fire, wear self-contained breathing apparatus. Do not use a solid water stream as it may scatter and spread fire. Hazardous decomposition products formed under fire conditions. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

# **SECTION 6: Accidental Release Measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with skin, eyes and clothing. For personal protection see section 8.2. Ensure adequate ventilation. Keep people away from and upwind of spill/leak.

## 6.2 Environmental precautions

Discharge into the environment must be avoided. Do not allow material to contaminate ground water system. Prevent product from entering drains. Local authorities should be advised if significant spillages cannot be contained. May cause long-term adverse effects in the aquatic environment.

#### 6.3 Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

#### 6.4 Reference to other sections

**FURTHER INSTRUCTIONS:** Please refer to EU disposal requirements or country specific disposal requirements for this material. See Section 13 for further information. Refer to protective measures listed in sections 7 and 8.

# SECTION 7: Handling and Storage

## 7.1 Precautions for safe handling

People handling epoxy products must have received special training according to guidelines from the National Occupational Health and Safety Board. Wear personal protective equipment. Avoid contact with skin and eyes. Apply technical measures to comply with the occupational exposure limits (see section 8).

Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. In the case of sensitisation to any of the ingredients, it is inadvisable to work with the product. Handle in accordance with good industrial hygiene and safety practice. Keep working clothes separately. Keep away from food, drink and animal feedingstuffs. Wash hands before breaks and at the end of workday. When using, do not eat, drink or smoke.

## 7.2 Conditions for safe storage, including any incompatibilities

CONDITIONS TO AVOID: Avoid temperatures above 40 °C, direct sunlight and contact with sources of heat. Do not freeze.

**STORAGE CONDITIONS:** Keep out of the reach of children. Keep at temperatures between 10 and 25 °C. Store in original container. Keep container tightly closed in a dry and well-ventilated place. Keep away from food, drink and animal feeding stuffs.

## 7.3 Specific end use(s)

Component of multicomponent coatings. The mixing and application to be in accordance with the technical data sheets.

**FURTHER ADVICE:** Refer to the regulatory exposure limits for the workforce enforced in each country. Some components may not have been classified under the EU CLP Regulation.

#### 8.2 Exposure controls

#### **Personal Protection**

**RESPIRATORY PROTECTION:** No personal respiratory protective equipment normally required. In case of insufficient ventilation wear suitable respiratory equipment, filter A.

EYE PROTECTION: Eye wash bottle with pure water. Safety glasses with side-shields conforming to EN 166.

**HAND PROTECTION:** Protective gloves complying with EN 374: Nitrile rubber. Butyl rubber. PVA. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Be aware that in daily use the durability of a chemical resistant protective glove can be notably shorter than the break through time measured according to EN 374, due to the numerous outside influences (e.g. temperature). Long sleeved clothing. Remove and wash contaminated clothing before re-use.

**OTHER PROTECTIVE EQUIPMENT:** Ensure that eyewash stations and safety showers are close to the workstation location. **ENGINEERING CONTROLS:** Ensure adequate ventilation, especially in confined areas.

# **Chemical Name:**

|  |                       |

# 9.2 Other information VOC Content g/l: <200 Specific Gravity (g/cm3) 0.120

# **SECTION 10: Stability and Reactivity**

#### 10.1 Reactivity

No reactivity hazards known under recommended storage and use conditions.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed.

# 10.3 Possibility of hazardous reactions

Amines cause exothermic reactions.

# 10.4 Conditions to avoid

Avoid temperatures above 40 °C, direct sunlight and contact with sources of heat. Do not freeze.

#### 10.5 Incompatible materials

Oxidizing agents. Acids and bases.

#### 10.6 Hazardous decomposition products

In case of fire **hazardous decomposition products** may be produced such as: Carbon monoxide, carbon dioxide and unburned hydrocarbons (smoke). No decomposition if stored and applied as directed.

# **SECTION 11: Toxicological Information**

#### 11.1 Information on toxicological effects

| 0                          |   |
|----------------------------|---|
| Acute Toxicity:            |   |
| Oral LD50:                 | No Information  |
| Inhalation LC50:           | No Information  |
|                            |   |
| Irritation:                | Irritating to eyes and skin.                                      |
| Correctivity               | No information available.   |
| Corrosivity:               |   |
| Sensitization:             | Prolonged or repeated skin contact may result in allergic eczema. |
|                            |   |

16096-31-4 64742-95-6

308068-56-6 CARBON

In the case of sensitisation to any of the ingredients, it is inadvisable to work with the product. Ingestion may cause irritation to mucous membranes. Irritating to eyes and skin. May cause allergic skin reaction. This product may contain Titanium Dioxide, which is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence of carcinogenicity in humans and sufficient evidence in experimental animals. This classification is relevant when exposed to titanium dioxide in dust or powder form only, including cured product that is subject to sanding, grinding, cutting, or other surface preparation activities.

# **SECTION 13: Disposal Considerations**

Benzyl alcohol

Formaldehyde, oligomeric reaction product

with 1-chloro-2,3-epoxypropane and phenol

Solvent naphtha (petroleum), light arom.

phosphoric acid ester, trialkylammonium salt

1,6-Hexanediol diglycidyl ether

13.1 WASTE TREATMENT METHODS: Dispose of waste material at an approved hazardous waste treatment/disposal facility in accordance with applicable local state, and federal regulations. Do not dispose of waste with normal garbage, or to sewer systems. Contaminated packaging to be disposed of as product. Fully drained containers which are drop- and scrape-free can be treated as industrial waste, and can possibly be recycled. Empty containers should be taken to an approved waste handling site for recycling or disposal. The product should not be allowed to enter drains, water courses or the soil.

230 mg/l

1.6 mg/l

47 mg/l

# **SECTION 15: Regulatory Information**

15.1 Safety, health and environmental regulations/legislation for the substance or mixture:

National Regulations:

| Denmark Product Registration Number:   | Not available  |
|--|----------------|
| Danish MAL Code:   | 0-5            |
| Danish MAL Code - Mixture:   | Not available  |
| Sweden Product Registration Number:  | Not available  |
| Norway Product Registration Number:  | Not available  |
| Germany WGK Class:   | 2              |
| Directive 2004/42/CE :   | <200           |
| Covered by Directive 2012/18/EC (Seveso III):  | Not applicable |
| Restrictions to product or to substances according to Annex XVII, Regulation (CE) 1907/2006: | Not applicable |

Annex XIV - Authorisation List:

CAS-No. Name According to EEC

Not Applicable

SVHC - Substances of very high concern (Candidate List):

CAS-No. Name According to EEC

Not Applicable

# 15.2 Chemical Safety Assessment:

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

# SECTION 16: Other Information

## Text for CLP Hazard Statements shown in Section 3 describing each ingredient:

| H226 | Flammable liquid and vapour.                       |
|------|--|
| H302 | Harmful if swallowed.                              |
| H304 | May be fatal if swallowed and enters airways.      |
| H315 | Causes skin irritation.                            |
| H317 | May cause an allergic skin reaction.               |
| H319 | Causes serious eye irritation.                     |
| H332 | Harmful if inhaled.                                |
| H335 | May cause respiratory irritation.                  |
| H336 | May cause drowsiness or dizziness.                 |
| H411 | Toxic to aquatic life with long lasting effects.   |
| H412 | Harmful to aquatic life with long lasting effects. |
