SEAMLESS  
QUALITY, BEAUTY,  
AND PERFORMANCE  
IN FLOORING

MONDECO SEAMLESS TERRAZZO

## ABOUT MONDECO

Manufactured using aggregates ranging from sparkling crystal mirror glass through to tough marble and granite chippings, and mixed with our high-performance resin technology newly improved for 2022, our Mondeco terrazzo comes to life by the hands of our Flowcrete flooring experts based in Cheshire, UK.

The timeless patterns of colour and aggregates always deliver a feeling of luxury and long-lasting beauty, while also blending in with any interior design style. Our seamless terrazzo is a popular choice for commercial environments, including office receptions, hotels, corporate entertainment suites, high-end residential apartment receptions and many more.

**OUR LATEST COLLECTION IS A RESULT OF THE MOST POPULAR AND VALUABLE FEEDBACK FROM ARCHITECTS AND INTERIOR DESIGNERS AROUND THE WORLD.**

## SPECIFICATION, MANUFACTURE AND INSTALLATION YOU CAN COUNT ON

WELLINGTON PLACE  
LEEDS

Our team has a vast experience in specifying seamless terrazzo. We can help you choose from over 60 of our favourite combinations of decorative aggregates and resin colour or help you choose an entirely bespoke design for your interior.

The durable formulations we've developed for nearly four decades have been recently improved to achieve superior UV stability and are easier to specify, order and install.

We also manufacture a fast-curing and an electrostatic version of Mondeco.

No matter what you choose, our seamless terrazzo will give your project the added benefits of durability under heavy foot traffic, and long-lasting qualities.

**NO COMPETITIVE  
COMMERCIAL FLOOR FINISH  
COMES CLOSE TO THE LIFE-  
CYCLE PERFORMANCE OF  
EPOXY AND CEMENTITIOUS  
TERRAZZO.**

A mature terrazzo floor can be stripped and re-sealed to brand-new conditions or, for a complete change of flooring, you can simply have one of our contractors grind, prime, and install another finish on top.

# THE NEW MONDECO COLLECTION

The finest outcome of our relentless efforts for quality, beauty, and performance in flooring.

Named with Italian words that best describe the character of the aggregates we chose, it pays homage to the origins of terrazzo. Terrazzo flooring dates back to Ancient Italy where its vibrant, wear-resistant, and flexible qualities were popular with forward-thinking flooring designers.

These are the most cherished and specified combinations of colour and aggregate we have worked on, based on feedback from specifiers and interior designers. It includes larger aggregates for a more rustic look, which is superior in quality and more visually reliable than polished concrete.

We challenge you not to fall in love with one of these 32 designs made of four standard RAL colours and decorative aggregates.

**TERRAZZO FLOORING DATES BACK TO ANCIENT ITALY WHERE ITS VIBRANT, WEAR-RESISTANT AND FLEXIBLE QUALITIES WERE POPULAR WITH FORWARD-THINKING FLOORING DESIGNERS.**

RAL 7037

**ALTHOUGH SEAMLESS TERRAZZO DOES NOT HAVE ANY SPECIFIC BREEAM ACCREDITATIONS, IT DOES OFFER GREEN CREDENTIALS.**

As well as low in VOC's, up to 60% of a terrazzo floor's composition can be aggregate content. These can include recycled, clear, coloured, and mirror glass chippings, as well as granite, flint, marble, and mother-of-pearl chips from stone-processing plants.

**IF LOOKED AFTER PROPERLY, WITH A REGULAR CLEANING ROUTINE AND POLISHING, IT WILL LAST THE LIFETIME OF THE BUILDING. MONDECO IS A FLOOR FINISH THAT IS STRONGER THAN THE SUBSTRATE.**

## OUR SERVICES

If you don't find the right colour for your project within our standard range, Mondeco can be tailor-made to any RAL colour and natural stone mix required to suit your project. It is so adaptable, it can be pre-formed to create up-stands, skirting and stairs.

In addition, our services include:

- Guidance and expert advice in the selection of our standard designs and sample ordering
- Tailored specification for project-specific designs or application requirements
- Use of our Floorzone Solution, where we act as a single point of contact for all elements of your floor build-up, including screeds, damp proof membranes, underfloor heating, and high-performance floor finish properties
- Access to our CPG Approved Partner Network, who are highly skilled seamless terrazzo applicators and trained to correctly apply Mondeco
