

► Floor and wall systems that meet strict hygiene and safety standards for...

PHARMACEUTICAL ENVIRONMENTS

www.flowcrete.co.uk

Welcome to Flowcrete UK

A critical consideration in the design and construction of pharmaceutical facilities is the flooring used to protect the different operational areas found within. Pharmaceutical brands require floor and wall systems that meet strict hygiene and safety protocols of Good Manufacturing Practice (GMP).

Whether found in production suites, assembly lines or research and development laboratories, flooring materials must offer a wealth of performance characteristics including excellent abrasion, chemical and impact resistance, the ability to withstand extreme temperature swings and provide an easily cleaned, smooth and hygienic finish.

Flowcrete UK offers a complete package of specialty epoxy, polyurethane, MMA and vinyl ester resin floor and wall systems designed to cater for all areas within pharmaceutical facilities. As well as an extensive range of sub floor screeds and substrate treatments in order to ensure the integrity of the final floor finish.

Application Suitability

GMP Compliant Epoxy, Polyurethane & MMA Flooring

Pharmaceutical production facilities require smooth floors, walls and ceilings, free from cracks and open joints that reduce the risk of contamination or bacteria build-up while at the same time ensure a safe, non-slip profile underfoot. According to 'The Rules Governing Medicinal Products in the European Union' the internal surfaces should permit an easy and effective cleaning and, if necessary, disinfection.

Resin flooring systems, including epoxy, polyurethane and MMA systems, ensure a nonporous, smooth and seamless surface where there is nowhere for bacteria or mould spores to grow and are appropriate for GMP installations.

Flowcrete UK's HACCP International certified and ISO 22196 compliant polyurethane floor screed materials offer enhanced protection with the inclusion of Polygiene®, a silver-ion antimicrobial agent, designed to protect the surface from degradation caused by microbial growth.

Flowseal EPW (0.12 mm)

Flowseal EPW provides a coloured, gloss or matt finish at ground level in areas of light traffic. The water based seamless floor sealer can be applied onto damp substrates and is vapour permeable, allowing floors in light processing areas and storerooms to breathe.*

MAINTENANCE AND LIGHT PRODUCTION AREAS

Standard Colours

TEMPERATURE RESISTANCE

Tolerant of sustained temperatures up to 70°C

VAPOUR PERMEABILITY

ASTM:E96:90

SLIP RESISTANCE

BS 7976-2

Dry >40 Low slip potential

20g/m²/mm/24hr

*Flowseal ESD EPW is also available for electrostatic dissipation. Please contact your local Flowcrete representative for further information. A full technical profile is available at www.flowcrete.co.uk

SLIP RESISTANCE	
BS 7976-2 (typical values for 4-S rubber slider)	Dry >40
WEAR RESISTANCE	
EN 13892-5 Abrasion quantity <1 cm²	
IMPACT RESISTANCE	
EN ISO 6272	10 N/m

*Flowcoat CR is available for additional chemical resistance. Please contact your local Flowcrete representative for further information. A full technical profile is available at www.flowcrete.co.uk

Flowcoat SF41 (0.35 mm)

A high performance, solvent free epoxy resin coating that can deliver an anti-slip profile by inclusion of graded aggregate between coats. Flowcoat SF41 is also hard wearing against sustained forklift traffic, as well as chemical and abrasion resistant.*

CHEMICAL AND EQUIPMENT STORAGE AREAS

Standard Colours

Flowshield SL (2 mm)

Flowshield SL delivers a glossy, hygienic, hard wearing and self-smoothing floor finish. Suited to use in areas subject to medium to heavy duty foot, trolley, pallet truck and rubber wheeled forklift traffic.*

PRODUCTION AREAS AND LABORATORIES

Standard Colors

SURFACE HARDNESS		
EN 13892-6	>400 N/mm ²	
IMPACT RESISTANCE		
EN ISO 6272	15Nm	
COMPRESSIVE STRENGTH		
EN 13892-2	55 N/mm ²	

*Flowshield ESD SL is also available for electrostatic dissipation. Please contact your local Flowcrete representative for further information. A full technical profile is available at www.flowcrete.co.uk

Flowcrete UK's materials offer a seamless, smooth finish that is easily cleaned and does not allow the collection of dust in line with GMP regulations.

A matt, self-smoothing flexible polyurethane resin floor finish, Peran Comfort has enhanced resistance to UV light and offers sound dampening properties. Ideal for a minimalist, modern, and contemporary environment and areas with intensive pedestrian traffic such as offices.

MADMINISTRATIVE AREAS

Standard Colours

Oyster White

ELONGATION AT BREAK		
DIN 53504	50– 100%	
WEAR RESISTANCE		
EN 13892-4	Max. wear depth <100µm	
SLIP RESISTANCE		
BS 7976-2	Dry >40 Low slip potential	

Peran STB Compact (3 mm)

Peran STB Compact is a hard wearing, decorative resin floor topping made up of colour stable quartz granules encapsulated in a clear resin binder. Peran STB Compact is a fast application scatter and power trowel system with a matt finish.*

PRODUCTION, MAINTENANCE AND STORAGE AREAS

Standard Colors

601

Grass Green Dark Grey 703

Mid Blue 501

Beige

101

Black 901

Mid Grey

702

IMPACT RESISTANCE		
EN ISO 6272	15Nm	
WEAR RESISTANCE		
EN 13892-5	Abrasion quantity 1 cm ³	
COMPRESSIVE STRENGTH		
EN 13892-2 >40 N/mm ²		
*Peran ESD STB Compact is also available for electrostatic dissipation.	*Peran STB Classic and Wet areas specifications are also available.	
Please contact your local Flowcrete repres A full technical profile is available at www		

Flowshield FX (2-3 mm)

A solvent-free, self-smoothing, epoxy resin, combined with decorative coloured particles. This hard wearing system is available in a matt or silk finish and provides excellent abrasion, UV and chemical resistance.

CORRIDORS AND ADMINISTRATIVE AREAS

WEAR RESISTANCE	
EN ISO 5470-1	< 3000mg
SHORE D HARDNESS	
DIN 53505	Approx. 90
SLIP RESISTANCE	
BS 7976-2	Dry >40 Low slip potential

Standard Colors

SPEED OF CURE	
1 hour	
2–3 hours	
COMPRESSIVE STRENGTH	
60 N/mm ²	
SLIP RESISTANCE	
Dry >40 Low slip potential	

*Flowfast Quartz Structure/Wet areas is also available. Please contact your local Flowcrete representative for further information. A full technical profile is available at www.flowcrete.co.uk

Flowfast Quartz (4 mm)

A hard wearing, decorative and very fast curing MMA flooring system that delivers a decorative matt finish. Flowfast Quartz consists of durable colour stable quartz granules encapsulated in a clear resin binder and delivers a fully trafficable surface just 60 minutes from application.*

LABORATORIES, GOWNING ROOMS AND AIRLOCKS

Standard Colors

Light Grey 701

Beige 101

Mid Grey

Grass Green 601

102

Dark Grey 703

Mid Blue 501

Black 901

TEMPERATURE RESISTANCE	
Tolerant to intermittent spillages up to 70°C or sustained heat from -20°C to 60°C	
COMPRESSIVE STRENGTH	
EN 13892-2 55 N/mm ²	
IMPACT RESISTANCE	
EN ISO 6272	15 Nm

*Flowfresh SR is also available for slip resistance Please contact your local Flowcrete representative for further information. A full technical profile is available at www.flowcrete.co.uk

Flowfresh SL & MF (2, 4-6 mm)

Flowfresh SL and MF are medium duty chemically resistant, antimicrobial treated polyurethane resin finishes. The non-tainting, non-dusting surface provides an easy-to-clean surface with impressive durability under traffic and heavy plant machinery.*

WET AND DRY PRODUCTION AREAS

Standard Colors

Flowchem VE

Exposure to concentrated acids, alkalis, aggressive solvents and extreme heat can lead to severe degradation of the floor and wall coverings in any chemical processing environment, as well as metal walkways and structures and tank linings.

Flowcrete's unique shrinkage compensated Flowchem range of vinyl ester resins has been engineered to support the toughest of environments, offering first class resistance to most corrosive agents and delivering exceptional protection against their potentially irreparable damage even at high temperatures.

With a variety of systems to protect concrete floors and walls as well as metal structures the Flowchem VE range ensure a reliable and easily maintained finish.

What's more, with insulation, isolation and electrostatic performance benefits, the Flowchem VE range delivers the ultimate in antistatic corrosion protection to take on the chemical processing industries.

- ✓ Aggressive Production Areas
- ✓ Tank Farms
- Chemical Processing

- Primary and Secondary Storage
- ✓ Waste Processing
- ✓ Water Treatment

for further assistance.

Performance Benefits Exceptional chemical resistance* Shrinkage compensated to reduce stress Withstands temperatures up to 185°C Coatings can be applied to a range of substrates Vertical systems available for tanks and silos Abrasion and impact resistant Withstands thermal shock Antistatic grades available to protect against shock UV resistant Fast cure systems minimise downtime * A detailed chemical resistance chart is available upon request for all Flowchem VE systems. Please contact your local Technical Department

Applied colours may differ from the examples shown. For a full technical profile, colour chart and samples, contact your local Flowcrete office.

Deckshield ID (2-3 mm)

Deckshield ID is a flexible, solvent free polyurethane car park deck coating system for intermediate decks of multi storey structures. Deckshield ID cosmetically enhances and reduces noise, making multi storey car parks brighter, safer environments to visit.*

PARKING STRUCTURES AND LOADING AREAS

Standard Colors

Forest Green

Dark Grey Tile Red

Traffic Purple

Traffic Blue

TEMPERATURE RESISTANCE

Softens over 70°C, hardens on cooling

IMPACT RESISTANCE

EN ISO 6272-1

ABRASION RESISTANCE

EN ISO 5470-1

Weight loss <3000mg using H22 wheel, 1000 cycles, load 1000g

Class II: ≥10 Nm

*Fast cure MMA grade is also available. Please contact your local Flowcrete representative for further

information. A full technical profile is available at www.flowcrete.co.uk

TEMPERATURE RESISTANCE		
Tolerant to intermittent spillages up to 120°C or sustained heat from -40°C to 105°C		
IMPACT RESISTANCE		
EN ISO 6272 20 Nm		
SLIP RESISTANCE		
BS 7976-2	Dry >40	

*Mondéco ESD TZ is also available for electrostatic dissipation. Please contact your local Flowcrete representative for further information. A full technical profile is available at www.flowcrete.co.uk

Mondéco TZ (7 mm)

A seamless antimicrobial polyurethane terrazzo floor finish that is resistant to high temperatures and steam cleaning. Ideal for industrial applications such as chemical and pharmaceutical processing areas where floors are subject to hot fluid spillages, heavy traffic, impact and aggressive cleaning agents.*

PROCESSING AREAS

Standard Colors

Ochre

Mid Grey

Mondéco Earth (7-8 mm)

Mondéco Earth is a decorative epoxy terrazzo floor finish containing granite and flint aggregates. Providing a highly resistant surface, this system is suitable for use in pharmaceutical production areas as well as in the healthcare industry, where hygiene and durability are of key concern.*

PRODUCTION AREAS

Standard Colors

Provence

Oyster White

Chilli Pepper

Agate Grey

EN 13892-2 IMPACT RESISTANCE

EN ISO 6272

TEMPERATURE RESISTANCE

COMPRESSIVE STRENGTH

Tolerant of sustained temperatures up to 60°C

*Mondéco ESD Earth is also available for electrostatic dissipation. Please contact your local Flowcrete representative for further information. A full technical profile is available at www.flowcrete.co.uk
