

Surface Tissue 30g/m²

Product sheet

Product description

Non-woven ECR glass fibre mat with an acrylate binder.

Uses

Acts as a smoothing layer following the use of Chopped Strand Mat M2 in conjunction with Flowchem VE resins.

Density

30 g/m² +/-10%.

Storage

Glass fibre mat should be stored in the original packaging and protected from impact damage. It is recommended that glass fibre be kept at a temperature not exceeding 25°C and a relative humidity of 65% ± 10%. A First-In-First-Out (FIFO) stock control system is recommended to minimize the influence of storage conditions.

Packaging

Roll width (+/-1%)	Roll length	Roll weight (+/-10%)
2 m	250 m	15 kg

Any suggested practices or installation specifications for the composite floor or wall system (as opposed to individual product performance specifications) included in this communication (or any other) from Flowcrete UK Ltd constitute potential options only and do not constitute nor replace professional advice in such regard. Flowcrete UK Ltd recommends any customer seek independent advice from a qualified consultant prior to reaching any decision on design, installation or otherwise.
